

Science Week

Year 1

For year one's Science Week, two events took place: a materials workshop and a materials session along with other activities that took place in class-

Year 3

Year three's were involved in a Forces workshop with John Leggott College. They had to design balloons and test out their speed.

Year 5

In year 5 there were two workshops which included a Mars online workshop and a meeting with an author and scientist.

Year 4

Year four's had an incredible time doing a Sound Workshop on Google

Year 5: "Talking to a real scientist was very exciting!"

Year 6

Year six took part in an online talk with a civil engineer and waste water expert.

Year 1: "We met Mr Veall and he showed us materials and talked about his job."

Reception: "We put a seed in and covered it in soil and water."

Nursery and

Reception

These two classes enjoyed lots of hands on practical work this week! They planted a range of plants includ-

Year 2

Year two enjoyed an online Marine Mammals workshop and other themed activities during the week.

All year groups had a variety of exciting assemblies too - Mrs Cole, a school governor, led an assembly about her career as a mechanical engineer and Mr Veall, our Chair of Governors, led a materials assembly.

Year 3: "We really enjoyed designing our balloons and had great fun in our teams."
